

2019 Made for Shade Application

This organization was founded over 13 years ago with a objective of providing shade structures to schools in the Rapid City area. The Made for Shade organization supplies grants to many organizations wanting to erect shade structures to protect our children and community from the sun's harmful rays. While we fund all types of structures (permanent and temporary), our focus is towards permanent structures at area schools which will be higher priority in our decision making process. We thank you for your support in our foundation.

Section A: List Primary contact(s) and or person responsible for the implementation.

Applicant(s)

Name	School	Organization
------	--------	--------------

Location

Email

Phone
